THESE CASES are extensively used, and possess valuable advantages over all other Coffins for transportation, depositing in vaults, or for ordinary interments. They are made of the Most Imperishable Materials; also Enameled Inside and Out. to prevent rust or corrosion; and when properly cemented, we have the gratifying reflection that the bodies of our deceased loved ones, enclosed in them, are free from irruptious of water, or depredations of vermin, and may, without oppressive odor, be kept—obviating the necessity of husty buriuls; or, if desired, transported to a distant land.

The OCTAGON CASE is a new style of Metallic Cases, of beautiful form, and finished in per-

Highly Polished Rosewood. and free from objections expressed by some concerning the shape and appearance of the forme styles.

The Subscriber is now prepared to furnish the above CASES, at the shortest notice possible, of

Black Walnut and Covered Coffins Made to Order, and delivered in the shortest possible time. For further information of the above Cases, pleatake notice of my descriptive pamphlets, which are in circulation.
